EXPERIENCE

Research Engineer I

June 2026 – Present

Mohamed bin Zayed University of Artificial Intelligence, BioMedIA Lab

Abu Dhabi, UAE

- Researching echocardiography foundation models under Prof. Mohammad Yaqub, extending view-aware pretraining toward temporal-causal objectives and automated clinical report generation.
- Supervising a team of four interns on a multimodal vision-language model for medical image parsing (FLARE 2026, MICCAI).

Machine Learning Engineer (Part-time)

May 2025 – Present

Labib AI

Abu Dhabi, UAE

- Designed AI solutions for government and enterprise proposals: visitor analytics, predictive maintenance, and multi-entity inspection ecosystems.
- Benchmarked multi-model edge AI workloads (multi-stream YOLOv8, LLMs, VLMs, Whisper) on Qualcomm Dragonwing IQ-9075 for on-device deployment.
- Engineered a real-time surgical room understanding pipeline integrating Whisper-3, Qwen-2.5, and HRNet, demoed to healthcare professionals via a Django web application.

Computer Vision Engineer, Co-founder

Jan 2023 – Present

KoralYZe AI

Abu Dhabi, UAE

- Co-founded a football analytics company generating tracking and event data directly from broadcast footage for downstream analytics.
- Presented at GITEX Expand North Star 2023; leading partnership development with UAE sports federations.

Mathematics Teacher

Aug 2020 – May 2024

Ministry of Education

Sharjah, UAE

- Instructed high school students in AP Calculus AB and BC.

EDUCATION

Master of Science in Computer Vision

Aug. 2024 – May 2026

Mohamed bin Zayed University of Artificial Intelligence

GPA: 3.75

- **Thesis:** EchoVision, a vision-language foundation model for echocardiography using view-aware contrastive pretraining to address view-text misalignment.
- Trained on 4M echocardiography videos (36 TB) using distributed multi-GPU SLURM pipelines; outperforms EchoCLIP on all nine internal regression tasks and PanEcho on six.

Bachelor of Science in Applied Mathematics and Statistics

Aug. 2016 – May 2020

Khalifa University

GPA: 3.60

RESEARCH PROJECTS

CardioBench: Do Echocardiography Foundation Models Generalize Beyond the Lab?

IJCAI-ECAI 2026

- Co-authored a standardized benchmark evaluating echo foundation models across nine tasks and eight public datasets.

SynSpineMS: Multiple Sclerosis Spinal Cord Lesion Detection from MultiSequence MRIs

MICCAI challenge

- Led our team's participation in the MICCAI MS-Multi-Spine challenge; finished 2nd overall.

Language and Planning in Robotic Navigation

LM4Plan, AAAI 2025

- Designed a Vision-Language Navigation system for multi-step planning in indoor robotic environments, evaluated across multilingual (Arabic/English) instruction settings.

SKILLS

Medical AI Foundation Models: Self-Supervised Learning, CLIP/JEPA Contrastive Learning, Knowledge Distillation, Vision-Language Models

Programming & Tools: Python, SQL, C++, Docker, Git, Linux, PyTorch, PyTorch Lightning, OpenCV, SLURM

Languages: English (IELTS 8.0), Arabic (Native)
